

The Swiss Cybersecurity Start-Up Map
Exploring the future of Swiss cybersecurity innovation

Swiss Cybersecurity Start-Up Map

The ongoing expansion of Swiss cybersecurity start-ups is fostering a hub of innovation right here in Switzerland. Our objective is to provide Swiss start-ups with the recognition they deserve. Presenting all of them in a single glance, the Swiss Cybersecurity Start-Up Map highlights their presence.

We aim to position Switzerland as a distinguished and influential centre for cybersecurity solutions worldwide, founded on the Swiss bedrock of trust, political stability/neutrality, and innovation strength by

- Supporting the evolution of the Swiss cybersecurity ecosystem.
- Increasing the visibility of new and innovative companies.
- Encouraging new collaborations amongst the start-ups.
- Connecting start-ups and other potential partners.

New start-ups on the map:

BRIGHTSIDE AI

The Swiss Cybersecurity Start-Up Map is provided by Swiss Cyber AG. The three main sponsors are: Dreamlab Technologies, Datastore Technologies and The Swiss Cyber Security Days. All three sponsors provide manpower, knowledge and experience.

The advisory board of The Swiss Cybersecurity Start-Up Map provides cybersecurity start-ups access to its wealth of expertise, amplifying their visibility and extending assistance wherever necessary.
