

The Swiss Cybersecurity Start-Up Map
Exploring the future of Swiss cybersecurity innovation

Swiss Cybersecurity Start-Up Map

Switzerland's cybersecurity start-up scene is rapidly evolving, driving innovation and strengthening the country's position as a global cybersecurity hub. The Swiss Cybersecurity Start-Up Map brings all these pioneering companies together in one place, giving them the visibility they deserve.

Our mission is to elevate Switzerland as a leader in cybersecurity solutions by leveraging its core strengths—trust, political stability, neutrality, and innovation.

Through this initiative, we aim to:

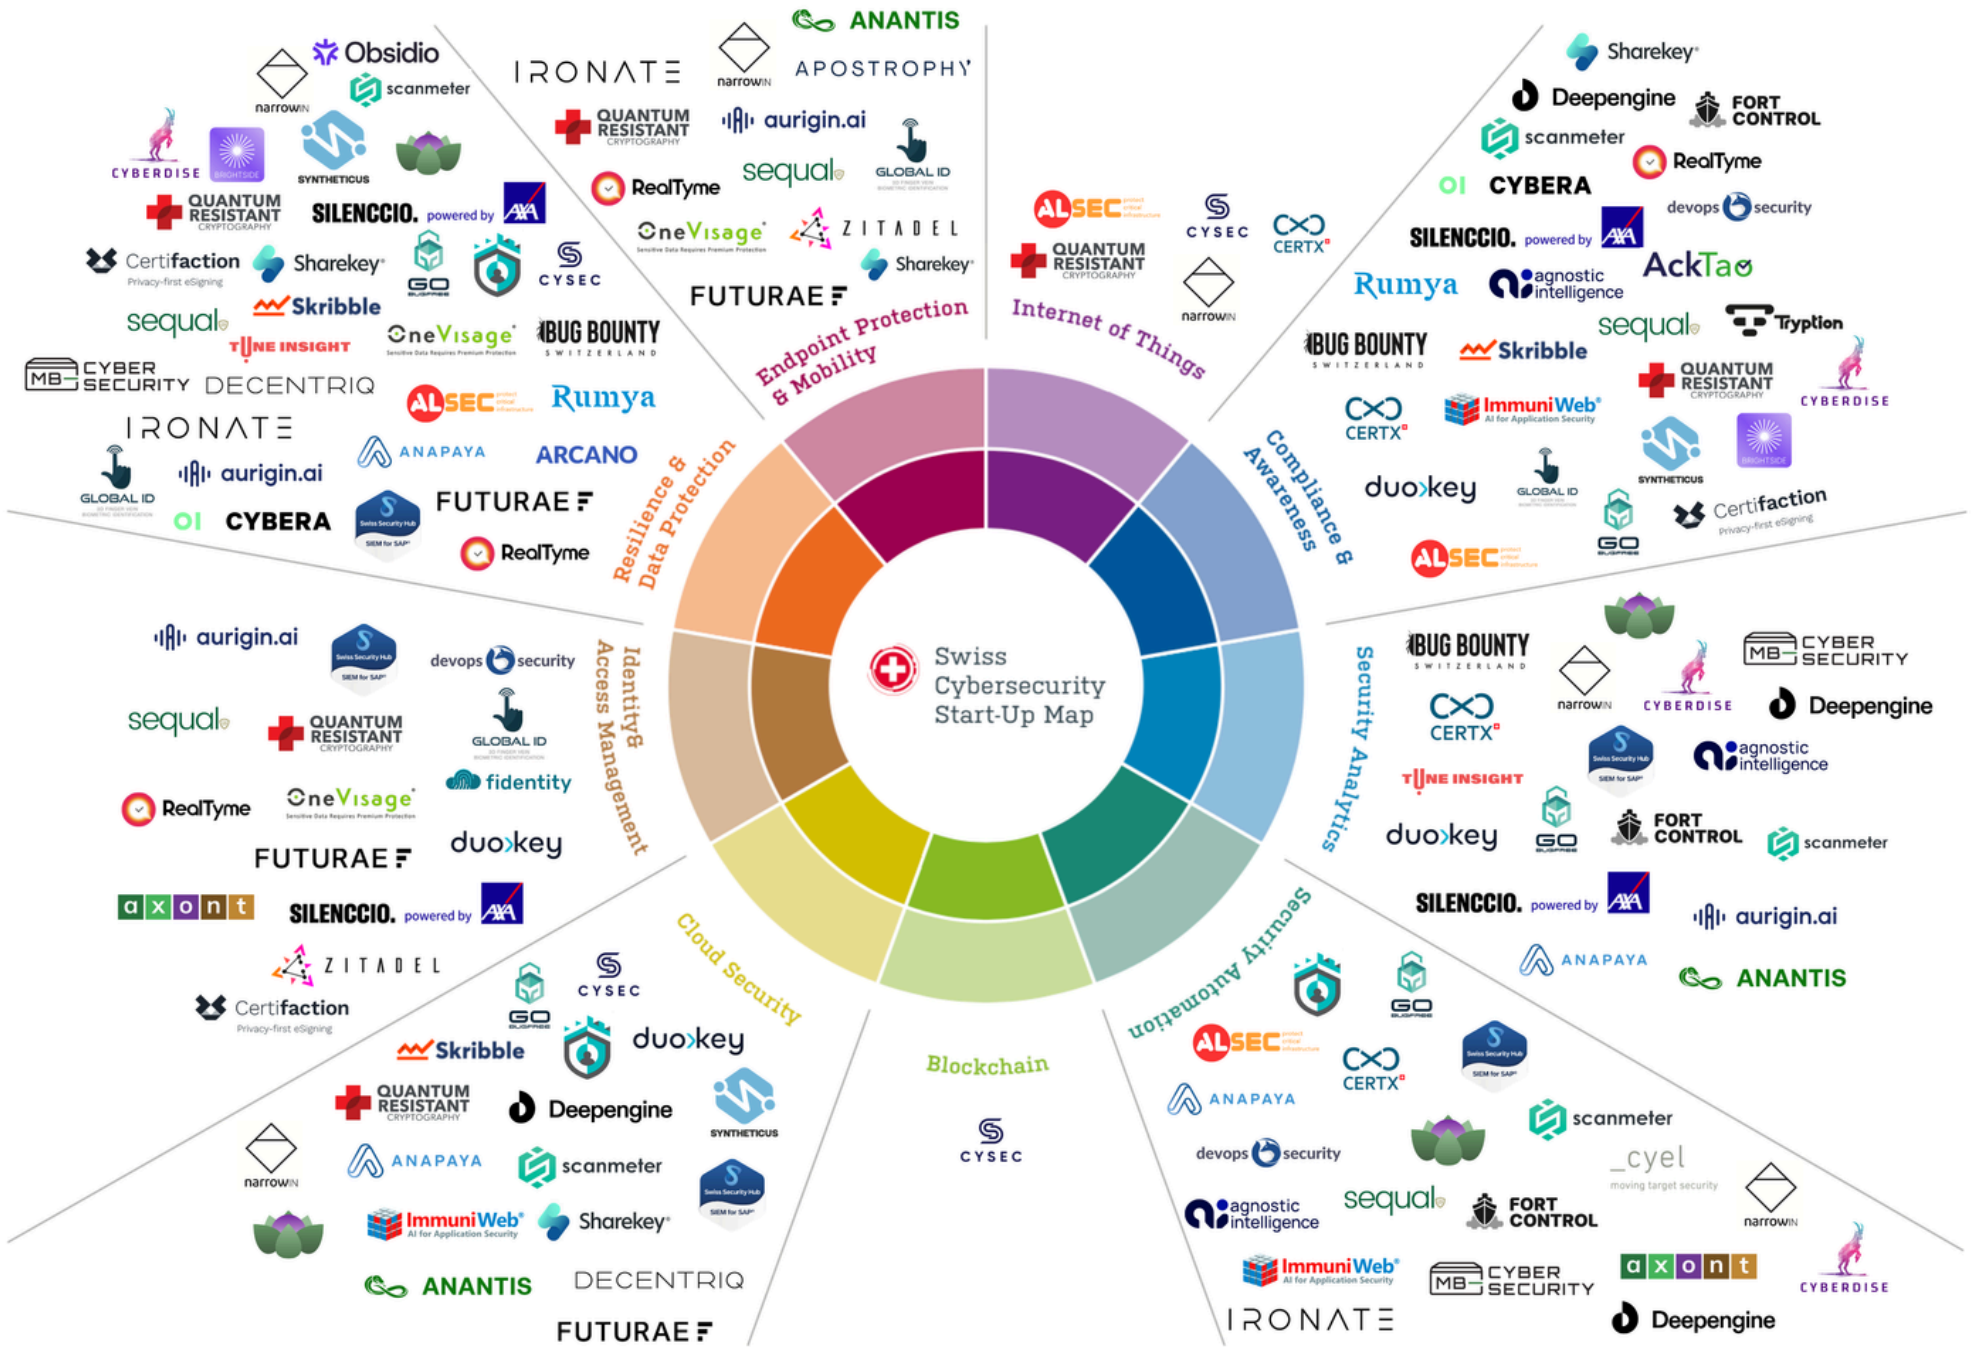

- Strengthen the Swiss cybersecurity ecosystem.
- Increase visibility for emerging and innovative companies.
- Foster collaboration among start-ups.
- Connect start-ups with key partners and opportunities.

Join us in shaping the future of cybersecurity in Switzerland!

New start-ups on the map:

ANANTIS

The Swiss Cybersecurity Start-Up Map is provided by Swiss Cyber AG. The three main sponsors are: Dreamlab Technologies, Datastore Technologies and The Swiss Cyber Security Days. All three sponsors provide manpower, knowledge and experience.

The advisory board of The Swiss Cybersecurity Start-Up Map provides cybersecurity start-ups access to its wealth of expertise, amplifying their visibility and extending assistance wherever necessary.
