Swiss Cybersecurity Start-Up Map

The continued growth of Swiss cybersecurity start-ups is generating a hotbed of innovatiohere in Switzerland. Our mission is to give Swiss start-ups the visibility they deserve. The Swiss Cybersecurity Start-Up Map showcases them all in one view.
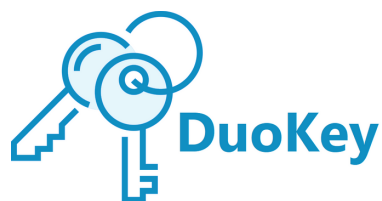

We want to establish Switzerland as a globally recognized and leading competence centre for cybersecurity solutions; built on the Swiss core values of trust, political stability/neutrality and innovation strength by

- Supporting the evolution of the Swiss cybersecurity ecosystem.
- Increasing the visibility of new and innovative companies.
- Encouraging new collaborations amongst the start-ups.
- Connecting start-ups and other potential partners.
